TozziniFreire has played an important role in most of the relevant transactions in the Brazilian market. We have a highly specialized Competition Law team, comprised of seven partners and more than 20 professionals dedicated exclusively to antitrust matters. With an increasing number of cases involving investigations and merger reviews, mostly of high complexity and repercussion, our team is solidly established as one of the largest and most active in the sector in the Brazilian market. We advise clients on issues related to international competition, especially in coordinating peers from other countries in Latin America.

The Antitrust and Competition Law practice is part of the Regulatory Group, which is a pioneering way to offer, in a full-service law firm, comprehensive advices related to Competition Law, Compliance and White-Collar Crimes, Government Contracts and Projects (Administrative Law), Government Relations, Intellectual Property and Foreign Trade. TozziniFreire's Regulatory Group has extensive experience in internal investigations concerning cartel practices, corruption, abuse of market power, as well as analyzing other anti-competitive practices.
