

CHINA DESK

Advisory services for Chinese and Brazilian companies with bilateral investments and business

Given China's growing importance in the global economic landscape, and especially in trade relations with Brazil, we created the China Desk, a team comprised of professionals with Chinese cultural expertise and experience advising Chinese and Brazilian companies with bilateral investments and business.

The group has advised several large Chinese companies and financial institutions on investments and operations in Brazil, as well as Brazilian companies on their investments in China.

Our professionals are regularly invited to speak as China experts at Brazilian companies, government agencies, and business schools.

We are a promoter of the business environment between Brazil and China through the formation of strong partnerships.
