## Comprehensive legal advice for the education sector, ensuring sustainable growth

Our Education group has extensive experience providing legal services to companies in the sector, from primary to higher education. In addition to for-profit and non-profit institutions, language schools, professional and technical courses and so-called “corporate universities”, in face-to-face, distance or hybrid modalities.

We provide consultancy on all legal aspects to various stakeholders in the education sector, both domestic and international, ensuring technical expertise and understanding of the specific needs of educational organizations, the market, and other stakeholders.

Educational institutions currently face increasing financial pressure, regulatory demands and changes, fierce competition, accelerated technological opportunities and risks, and generational and social changes. In this scenario, our specialized group is able to manage sector-specific risks and anticipate market trends, ensuring clients receive the best legal solutions to ensure their businesses grow safely, sustainably, and with integrity.

The multidisciplinary structure combined with TozziniFreire's full-service approach allows us to advise clients in this segment on a variety of legal issues.
