

# GERMAN DESK

**We connect businesses between Brazil and Germany with strategy and legal security**

The trade relationship between Brazil and Germany is extremely important for the economic landscape of both Europe and Latin America. Approximately 1,600 German companies operate in Brazil, representing 8 to 10% of Brazil's industrial GDP. São Paulo alone has one of the largest concentrations of German industrial companies in the world.

Germany is Brazil's main trading partner in Europe and the fourth largest in the world. German investments are extensive, covering sectors such as automotive, chemicals, pharmaceuticals, energy, machinery, finance, and insurance. Recently, cooperation between the countries has intensified, with a focus on innovation, technology, and startups, especially among mid-sized companies.

Our German Desk is a multidisciplinary group that serves clients in the DACH region (Germany, Austria, and Switzerland), from new entrants to multinationals and family businesses. With in-depth knowledge of Brazilian law and local industries, our team offers customized legal solutions for DACH companies operating in Brazil or for Brazilian companies doing business abroad.

Our attorneys speak fluent German and understand the cultures and business practices of both countries, which is essential to avoid cultural conflicts and ensure safe and effective operations.
