

HOTELS & RESORTS

**We transform uncertainty into opportunity,
creating solid structures for the hotel sector**

The sophistication of transactions in the Brazilian hotel and resort industry has increased exponentially over the last decade. This movement not only changed the business environment but also brought with it legal uncertainty regarding the compatibility of certain aspects of these operations with Brazilian law. One of the main objectives of our Hotels & Resorts sector group is to create and implement business structures that are compliant with the law and, at the same time, predictable and reliable in allocating legal risks among market participants, such as landowners, hotel operators, and investors.

Our group has collaborated, at the institutional level, with the most relevant Brazilian organizations in the sector to improve industry regulations and guidelines.

MAIN SERVICES

- Specialized legal advice on the challenges of Brazilian legislation applied to the hotel sector.
- Litigation portfolio management and support in resolving legal disputes.
- Consulting services on key industry-related issues: real estate, environmental, and tax.
