

# JAPAN DESK

## Comprehensive legal advice for Japanese companies on their business in Brazil

Our relationship with Japanese companies spans decades. As part of our initiative to offer tailored services to Japanese clients, we established the Japan Desk, which has been steadily and significantly expanded, and is now one of the largest working groups among law firms in Brazil.

With a multidisciplinary approach, we provide comprehensive advice to Japanese companies on their business in the country, with significant experience in mergers and acquisitions, infrastructure projects, the establishment of subsidiaries, joint ventures with local partners, and the marketing of their products in the Brazilian market. Our clients include several of Japan's largest trading companies, as well as large and medium-sized industrial and financial companies. The group also works in partnership with Japanese law firms and the Japanese branches of international law firms that handle global acquisitions involving Brazilian and Japanese companies.

Our Japan Desk frequently coordinates projects for Japanese clients, working closely with specialized departments on various business-related issues.

We are a driving force behind the business environment between Brazil and Japan by fostering strong partnerships.
