

LATIN AMERICA DESK

Connecting opportunities: Brazil and Latin America in business and investment

Brazil has characteristics that make it globally attractive, and its relationship with Latin American countries has great potential for development. Our Latin America Desk was created to advise clients on business involving Brazil and other Latin American countries.

The team is comprised of professionals from diverse backgrounds who have advised Latin American companies and financial institutions on investments in Brazil, as well as supporting Brazilian companies in their operations in Latin America.

To more effectively address the growing business opportunities between Brazil and its main trading partners, we pioneered the creation of international desks in Latin America, staffed by professionals specializing in key trade and investment destinations.

We began our operations in Asia (desks for China, Korea, and Japan) and quickly expanded to other markets, such as German-speaking countries, Portugal, Italy, and Latin America. These knowledge centers are staffed by professionals who understand the cultures and legal and business practices of each region and are committed to staying up-to-date on bilateral trade relations between Brazil and these countries.
